Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

09/657,446

Applicant(s)

EDGREN ET AL.

Examiner

Blessing M. Fubara

Art Unit

1615

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 46-60 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 46-60 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- 11) ☐ The proposed drawing correction filed on ____ is: a) ☐ approved b) ☐ disapproved by the Examiner.
- If approved, corrected drawings are required in reply to this Office action.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

- 13) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. ____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).
- a) ☐ The translation of the foreign language provisional application has been received.
- 15) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449) Paper No(s) 11.
- 4) ☐ Interview Summary (PTO-413) Paper No(s). ____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTION

Examiner acknowledges receipt of paper number 10 filed 01/30/02.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 46-58 and 60 are rejected under 35 U.S.C. 102(b) as being anticipated by Kjornaes et al. (US 4,713,248).

Kjornaes discloses a pharmaceutical controlled release dosage form comprising individually coated units that contain active substances. The coat comprises outer and inner film layers. The outer film layer of METHOCEL is coated onto the inner film layer of EUDRAGIT and METHOCEL. The film forming substances are selected from ethylcellulose, hydroxypropylmethylcellulosephthalate and cellulose acetate phthalate. Hydroxypropylcellulose, carboxymethylcellulose, methylcellulose, propylcellulose, hydroxyethylcellulose, hydroxymethylcellulose and hydroxypropylmethylcellulose are few examples of polymeric substances incorporated in the inner layer. Kjornaes teaches oral administration (column 6, lines 20-29). See abstract, column 2, line 38 to column 3, line 59, column 5, lines 13-33 and columns 7-12. The method claimed in the application is a broad administration of the claimed composition and the scope of the claims read on the teachings of Kjornaes. The dosage of Kjornaes would be capable of the release profile recited in claims 55-

Art Unit: 1615

58 of the application since the dosage form of Kjornaes reads on the claimed dosage form. The teachings of Kjornaes meet the limitations of the claims.

3. Claims 46-58 and 60 are rejected under 35 U.S.C. 102(b) as being anticipated by Chen et al. (US 5,558,879).

Chen discloses a controlled release dosage form comprising a core of medicament and pharmaceutically acceptable excipients and polymeric binders and osmotic agents. The core is coated with a dual membrane coating where the dual membrane consists of first inner coating layer and a second outer coating layer. See abstract. A 24-hour therapeutic blood level is achievable with this dosage form (column 3, lines 59-64). The inner coating layer consists of plasticized water insoluble pharmaceutically acceptable polymer and a pharmaceutically acceptable water-soluble polymer; the second outer coating consists of a medicament and water-soluble polymer (abstract). Water-insoluble polymers applicable in Chen are cellulose esters, cellulose ethers, cellulose acylate, cellulose acetate, cellulose diacetate, ethylcellulose and cellulose ethyl ether. Hydroxymethyl cellulose, hydroxypropyl cellulose or cellulose may be combined with the water insoluble polymer to modify the permeability of the membrane coat around the core (column 5, lines 1-20 and column 6, lines 6-56). The application does not exclude medicine from the outer membrane coat layer. The dosage of Chen would be capable of the release profile recited in claims 55-58 of the application since the dosage form of Chen reads on the claimed dosage form. The teachings of Chen meet the limitations of the claims.

4. Claims 46-60 are rejected under 35 U.S.C. 102(b) as being anticipated by Bartoo et al. (US 4,743,248).

Art Unit: 1615

Bartoo teaches an osmotic dosage form comprising an outside wall and an inside wall (abstract). The outside wall comprises semipermeable polymers where the semipermeable polymers are cellulose esters, cellulose ethers, cellulose acylate, cellulose acetate and cellulose diacetate and triacetate (column 3, line 54 to column 4 line 5). The inside wall comprises polymeric formulation that is responsive to environmental changes such as pH (column 4, lines 6-9). The internal compartment comprises beneficial agents or active drugs and the dosage form also has an expandable layer (column 4, lines 47-68 and column 7, line 6). In example 1, the cores are coated with an inside wall forming composition comprising hydroxypropylmethylcellulose phthalate, cellulose acetate, sorbitol and polyethylene glycol; and the second outside semipermeable wall is coated onto the inside wall. The scope of the claims in the application reads broadly on a conventional osmotic dosage form and reads on Bartoo. The dosage of Bartoo would be capable of the release profile recited in claims 55-58 of the application since the dosage form of Bartoo reads on the claimed dosage form. The claimed method is a broad administration of the claimed composition and Bartoo's dosage form is administered to animals. Thus, Bartoo anticipates the claims.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1615

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blessing M. Fubara whose telephone number is 703-308-8374. The examiner can normally be reached on 7 a.m. to 3:30 p.m. (Monday to Friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page can be reached on 703-308-2927. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-3592 for regular communications and 703-305-3592 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1234.
